

Amerisips Homes
2658 Clements Ferry Rd.
Charleston, SC 20492

7/30/2014

Dear Steve & Tina,

Congratulations! After completing our initial review, the U.S. Department of Energy has determined that Amerisips is a DOE Zero Energy Ready Home Housing Innovation Award **Winner** for 2014 in the **Custom Category**.

DOE considers this national award a significant accomplishment because your leadership is paving the way for the rest of the U.S. housing industry to provide zero energy ready homes that are better for our nation, our communities, and individual homeowners.

This home was the first home certified as DOE Zero Energy Ready in the state of South Carolina.
